NOMINATIONS TO THE BOARD

Pursuant to the Company's Corporate Governance Manual, the Nomination Committee shall pre-screen and shortlist all candidates to be nominated to become members of the Board of Directors. The Nomination Committee shall consider the guidelines set forth in the Manual. This is in accordance with memorandum circular no.16 of the Securities and Exchange Commission. Nominations were screened by the Nomination Committee members. The incumbent members of the Board of directors are expected to be nominated for the term 2009-2010.

The following are nominated as Directors of the Company:

1. Dr. Isidro B. Benitez
2. Mr. Juan Carlos del Rosario
3. Ms. Teresita B. Benitez
4. Mr. Max O. Borromeo
5. Mr. Rene B. Benitez
6. Mr. Joel S. Ferrer
7. Mr. Francisco Eizmendi Jr.
8. Atty. Eugene Reyes
9. Mr. Micheal Wee Soon Lock

DIRECTORS AND EXECUTIVE OFFICERS

The Directors elected who shall serve for a term of one (1) year or until their successors shall have been elected, and their business experience for the last five years:

Dr. Isidro B. Benitez, 81, Filipino, is the Chairman of the Board. Dr. Benitez has served as a Director since the Company's incorporation. He is also the Chairman of Obstetrics and Gynecology of the Makati Medical Center, MERG Realty Corporation and Amalgamated Development Corporation. Concurrently, Dr. Benitez is the Vice-Chairman of AIB and a Director of Nationwide Health Systems. He was formerly the Chairman of Obstetrics and Gynecology of the University of the Philippines / Philippine General Hospital where he worked from 1955 to 1988. He is presently the Chairman of the Examining Board of SGOP, Philippines, and a member of the American College of Surgeons, the Philippine College of Surgeons and the Philippine OB-Gyne Society. He obtained his Doctor of Medicine degree from the University of the Philippines, specialized in Obstetrics and Gynecology at John Hopkins University, Baltimore, Maryland and took courses in the Senior Executive MBA Program of the Ateneo de Manila University. He is also a director of Dearborn Motors, Inc. and Vice Chairman of Amalgamated Investment Bancorporation.

Mr. Juan Carlos del Rosario, 58, Filipino, is the Vice Chairman of the Board. He has served as a Director since 1996. Mr. Del Rosario is currently the Chairman of AIB and Inter Global Alliances Inc. He was formerly the Senior Vice President and Chief Investment Officer of the Philippine American Life Insurances Co. (AIG Philippines) where he served as a member of the Board of Directors in several of its subsidiaries and affiliated companies. He was a Director of AIG Investment Corporation (Asia) Ltd., Cosmos Bottling Co., Bacnotan Cement Corporation, Investment Capital Corporation of the Philippines and Science Park of the Philippines Inc. Prior to joining the AIG/Philamlife Group, he had worked for 17 years for Chase Manhattan Bank in New York Head Office, and overseas postings in Saudi Arabia, Brazil and the Philippines. He is a graduate of De La Salle University, Manila with Bachelor of Arts (History) and Bachelor of Science (Commerce) degrees. He received his MBA (Finance and Marketing) from Columbia University, New York City and also completed the Executive Development Program at Cornell University Graduate School of Management Ithaca, New York and the Strategic Business Economics Program at the University of Asia and the Pacific, Manila.

Ms. Teresita B. Benitez, 74, Filipino, is the Company's President. She has been a Director since 2001. She had previously worked for the Philippine Bank of Commerce as Assistant Personnel Manager and United Coconut Planters Bank as Assistant Corporate Secretary. She had also been a director at Asiatrust Bank and Amalgamated Development Corporation. At present she is the Treasurer and Director of Nationwide Health Systems and FLB Development Corporation and the President of MERG Realty and Development Corporation. Ms. Benitez obtained a Bachelor of Science degree in Commerce from the University of San Francisco.

Mr. Max O. Borrromeo, 61, Filipino, is the Company's Senior Managing Director/COO. He has been a Director since 2000. Aside from being a Director of the Company, Mr. Borrromeo is concurrently President and a Director of Honda Motor World, Inc., HMW Lending Investors, Dearborn Motors Co., Inc, Astron Gestus, Inc., Visayas Auto Ventures, Inc., Cebu Maxi Management Corporation, Maxi Agricultural Corporation, Cebu Parkland, Inc. He is also a Director in the following companies: Borrromeo Brothers Estate, Inc., Margarita Agro-Industrial Corp., Salud Borrromeo Foundation, Inc. and McBros Development Corporation. At present, Mr. Borrromeo is the governor of the Cebu Business Park. He graduated with a Bachelor of Arts degree in Economics from the Ateneo de Manila University.

Mr. Rene B. Benitez, 47, Filipino, is the Company's Managing Director/VP. He has been a Director since 1996. Prior to joining the Company, he held the position of Country Manager of the Development Bank of Singapore ("DBS") Securities, Inc. He has had extensive experience in foreign and local investment banking and capital market operations, having been connected with Insular Investment and Trust Corporation, Shearson Lehman Brothers (USA), Prudential Bache Securities (USA) and the World Bank. He was formerly a member of the Philippine Stock Exchange and is currently Director of H. Thomas Group, Inc., Vision Air Flight Support Service, Inc., Pikeville, Inc., MERG Realty and Development Corporation, Commercial & Consumer Credit Corporation, Global Credit and Management Group, JCR Realty and Management and Interglobal Alliances. He graduated from Claremont Colleges / Pitzer College with a double degree in Business Economics and Organizational Studies. He also has a Master's Degree in Economics from Yale University.

Mr. Joel S. Ferrer, 55, Filipino, has served as a Director since 1998. Mr. Ferrer is currently the President of PARMAN Inc., an overseas recruitment company. At the same time he also manages his family's aquaculture business. Previous to this, he had worked for ERECSA, Inc. where he was the Executive Vice President. His other work experience includes being an investment executive at the Summa International Bank of Indonesia and a Lending Officer at the Bank of America. He obtained his Masters Degree in Business Management from the Asian Institute of Management and completed the Strategic Business Economics Program of the University of Asia and the Pacific.

Mr. Francisco C. Eizmendi Jr., 73, Filipino, is one of the Independent Directors of the Company. He was elected as a Director in the recent Stockholders' Meeting of Makati Finance Corporation and concurrently a Director of RCBC Forex Brokers Corporation. Mr. Eizmendi had been the President and Chief Operating Officer of San Miguel Corporation for 15 years. He also had been a member of the Advisory Board of Rizal Commercial Banking Corporation. Mr. Eizmendi graduated with a Bachelor of Science in Chemical Engineering Degree from the University of Santo Tomas in 1956.

Atty. Eugenio E. Reyes, 72, Filipino, is one of the Independent Directors of the Company. He was elected as a Director only in the last quarter of 2003. Atty. Reyes is with Jacob Jacob & Associates, concurrently the Corporate Secretary of Parman, Inc. and Executive Secretary of the Philippine Association of Securities Brokers and Dealers, Inc. He was also a former Director of the Securities & Exchange Commission from 1999 to 2001. Atty. Reyes finished his Bachelor of Laws at the University of Southern Philippines in Cebu City.

Mr. Michael Wee Soon Lock, 72, Singaporean, has served as a Director since 1998. Mr. Wee is a senior ASEAN banker and retired Executive Chairman of Development Bank of Singapore Securities Holding PTE Ltd. He has held the positions of the Chairman of NatSteel Ltd., Deputy Chairman of DBS Land, Executive Vice President of the Development Bank of Singapore, General Securities Investments Ltd., Singapore Bus Service Ltd., Laguna National Golf and Country Club, Ltd. and was the Director of NFC Merchant Bank, Ltd. Mr. Wee graduated with a Bachelor of Science Degree in Chemical Engineering from the University of Birmingham and obtained his Masters Degree in Finance from the University of British Columbia.

INDEPENDENT DIRECTORS

Among the Directors, Messrs. Francisco C. Eizmendi Jr. and Atty. Eugenio E. Reyes were elected as the two (2) Independent Directors of the Company at the 2008 Annual Stockholders' Meeting.

SENIOR MANAGEMENT

For 10 years she served as the Senior Vice President of Finance and Administration of the Science Park of the Philippines, Inc. (1990 – 2001). She also served as a Director for the Kyudenko Needs Creator IT Company from 2002 to 2005. Subsequently she became the CFO of Cintree Management Services Inc. in 2005 to 2007. She graduated with a Bachelor of Science degree in Accounting from the University of San Carlos in 1975. She completed her master's degree in Business Management from the University of the Philippines in 1984 and finished the Top Management Program of Asian Institute of Management in 1997.

Atty. Danilo Enrique O. Co, *Corporate Secretary and Legal Counsel, 39, Filipino.* Atty. Co has been serving the Corporation as its Corporate Secretary and Legal Counsel shortly after it went public in 2003. He is currently the Managing Partner of Co Ferrer & Ang-Co Law Offices. He is also the Corporate Secretary and legal counsel of Information Capital Technology Ventures, Inc., a publicly-listed company, and a Director and/or Corporate Secretary of several other Philippine corporations, including Western Roadhouse Foods, Inc., Papercon, Inc., Amalgamated Investment Bancorporation and Kalayaan College. Atty. Co obtained his BS Business Administration (*cum laude*) and Law degrees from the University of the Philippines.

Mr. Albert J. Batacan, *Factoring Manager, MC Coordinator, 50, Filipino.* He has been employed by the Company since 2000. Prior to his employment with the Company, Mr. Batacan had served in various functions in a number of companies through the years. His more recent job experiences were with PARMAN, Inc. as Administrative Assistant, Toyota Bel-Air, Inc. as Financing Coordinator and YL Finance, Inc. as a Marketing Officer. Mr. Batacan graduated with a Bachelor of Science in Management Degree from the Letran College.

Mr. Alfredo A. Reyes, *Rx Cash Line Senior Manager, 48, Filipino.* Alfredo has been employed by the Company since 1997. He started as an Account Officer and subsequently was promoted to work as a Supervisor in 2002. Alfredo graduated from the University of the East with a Bachelor of Science degree in Accounting in 1984.

FAMILY RELATIONSHIP

Dr. Isidro B. Benitez and Ms. Teresita B. Benitez are spouses, and Mr. Rene B. Benitez is their son.

INVOLVEMENT IN CERTAIN LEGAL PROCEEDINGS

None of the Directors and Executive Officers was involved during the past five years in any bankruptcy proceedings up to March 31, 2009. Neither have they been convicted by final judgment in any criminal proceeding or been subject to any order, judgment or decree of competent jurisdiction, permanently or temporarily enjoining, barring, suspending, or otherwise limiting their involvement in any type of business, securities, commodities or banking activities, not any action by any court or administrative

body to have violated a securities or commodities law.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In the ordinary course of business, the Company has loans and other transactions with its subsidiaries and affiliates, and with certain directors and stockholders. These transactions are made substantially on the same terms and conditions as with other individuals and businesses of comparable risks. The Company had outstanding obligations to certain stockholders amounting to P 142.5 million as of December 31, 2008. Outstanding obligations to certain stockholders as of March 31, 2009 amounted to P123.7 million.

No stock warrants or stock options on the Company's shares have been issued or given to the Directors or Executive Officers as a form of compensation for services rendered.

IDENTITY OF SIGNIFICANT EMPLOYEES

There is no person who is not an executive officer who is expected to make a significant contribution to the business of the company.

INDEPENDENT PUBLIC ACCOUNTANTS

The auditing firm of SGV & Co. is the incumbent external auditor of the Company for the calendar year 2008. The Company has complied with SEC Memorandum Circular No. 8, Series of 2003 regarding rotation of external auditors or engagement partners every five years. Ms. Jessie D. Cabaluna, SGV partner, is the reviewer/auditor of the Company.

The representatives of the said firm are expected to be present at the shareholders' meeting, will have the opportunity to make a statement if they so desire, and are expected to be available to respond to appropriate questions.

There had been no disagreements with SGV & Co. with regards to accounting policies and financial disclosures of the Company.

ISSUANCE AND EXCHANGE OF SECURITIES

AUTHORIZATION OR ISSUANCE OF SECURITIES OTHER THAN FOR EXCHANGE

As approved by the Board of Directors and upon concurrence by the Stockholders of the Company, an annual dividend declaration policy was set up, amount of which will be equivalent to 30% of the Company's net earnings for the year. For the year 2006, the Board of Directors approved the following: 30% of the audited net income after tax of P 16,205,137 is P 4,861,541 of which 50% was declared cash dividends amounting to ₱2,430,831 and the balance thereof was declared as stock dividends amounting to ₱2,430,710 in favor of the stockholders of record as of July 12, 2007 and 8.28% of the outstanding capital stock as of October 31, 2007 amounting to P83,117,897 is ₱6,882,103 was declared as stock dividends in favor of the stockholders of record as of November 26, 2007. Fractional shares related to this declaration amounted to ₱41 per share and was settled in cash. For the year 2005, the Board of Directors approved the following: 30% of the audited net income after tax of P12,193,904 is P3,658,170, 50% of the amount, P1,829,066 was declared as stock dividend and the other 50%, P1,829,104 was declared as cash dividend. Stock dividends shall be approved by a majority vote of the stockholders. On June 19, 2008, the Board of Directors approved the declaration of 2.51% stock dividends in the aggregate amount of P2,257,147 in favor of the stockholders of record as of July 17, 2008, with a payment date not later than August 12, 2008. On the same date, the Board of Directors also approved the declaration of cash dividends amounting to P2,257,147. Fractional shares related to this declaration were settled in cash amounting to P35.

OTHER MATTERS

PROPOSED ACTION

The following matters will be submitted to a vote at the Annual Meeting of the stockholders:

1. Approval of the Minutes of the Special Stockholders' Meeting held on 19 June 2008.
2. Approval of the 2008 Annual Report and the 2008 Audited Financial Statements

A copy of the 2008 Audited Financial Statements will be furnished to all shareholders as of Record Date, and the 2008 Annual Report will be presented during the Annual Stockholders' Meeting.

3. Declaration of Dividends

The dividend policy dictates that 30% of 2008 Net Income after Tax will be declared as dividends. It is expected that the Board shall proposed this in the next BOD Meeting in June 4, 2009.

4. Ratification of all Acts and Proceedings of the Board of Directors and Corporate Officers since the 2008 Special Stockholders' Meeting

All acts and proceedings taken by the Directors and Corporate Officers relate mostly to the regular business transactions wherein the Board of Directors is required to act upon. These actions are subjected to annual review of the Company's independent auditors. Major items are as follows:

a. Appointment of members of various committees, namely Executive Committee, Audit Committee, Nomination Committee, Retirement Committee and Compensation Committee

Copies of the Minutes of the Meetings of the Board of Directors may be examined by stockholders of record as of Record Date at the office of the Corporate Secretary c/o Daniel Co Law Office at 11/F Atlanta Center, 31 Annapolis St., Greenhills, San Juan, Metro Manila during office hours.

5. Election of Directors

The same Directors are expected to be re-elected except for the possible election of new Directors.

6. Appointment of External Auditor

It is expected that SGV & Co. will be reappointed as the Company's external auditor.

VOTING PROCEDURES

The affirmative vote of stockholders present in person or by proxy representing at least a majority of the outstanding capital stock of the Corporation shall be sufficient to carry the vote for any of the matters submitted to a vote at the Annual Stockholders' Meeting. Matters to be approved under "Other Matters" of the agenda, if any, shall be approved by stockholders owning majority of the shares of stock present during the annual stockholders' meeting or such other voting requirement as may be mandated by law.

The manner of voting and counting of votes will be as follows:

- a) Every stockholder entitled to vote shall have the right to vote, either in person or by proxy, the number of shares registered in his/her/their respective name of record as of the close of business hours of May 12, 2009. Only written proxies, signed by the stockholders and duly presented to the Corporate Secretary on or before May 27, 2009 for inspection and recording shall be honored for purposes of voting.
- b) On stock dividend declaration, approval shall require a majority vote by the stockholders entitled to vote.
- c) For purposes of electing directors, the system of cumulative voting shall be followed. Each stockholder has a number of votes equal to the number of shares he owns, times the number of directors to be elected. The stockholder under this voting system has the option to (i) to cast all his votes in favor of one (1) nominee; or (ii) distribute those votes in the same principle among as many nominees as he shall see fit. Only candidates duly nominated during the meeting shall be voted by the stockholders entitled to vote or by their proxies.
- d) Unless required by law, or upon motion by any stockholder, voting need not be by ballot and will be done by show of hands and counted manually by the Corporate Secretary.

UNDERTAKING TO PROVIDE ANNUAL REPORT

The registrant undertakes to provide *without charge* to each stockholder a copy of the Company's Annual Report on SEC Form 17-A upon written request to the Company addressed to:

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Plans and Prospects for 2009

The Company has outlined plans geared towards its goal of improving the quality of its service and further increasing its shareholder value. The Company has chosen to adopt sales and marketing strategies that are expected to strengthen its foothold in its existing niche markets and, at the same time, enter new niche markets. The Company also intends to expand its distribution reach through the geographical expansion of its trading areas. Further, the Company intends to go on computerization to efficiently facilitate, monitor and account its day-to-day transactions, thus providing Management with proper tools in evaluating the Company's performance.

The Company's future plans and prospects are primarily into regional expansion to widen its market base, changes it intends to undertake and implement with regard to its lending activities' process and systems, funds generation and computerization.

Lending Activities

Being its core operations, the Company has formulated plans to expand its lending operations that will guarantee sustained growth. Its lending activities and loan products will still be focused on the niche consumer loan market and SME markets, due to the experience it has gained from these segments. MFC will also undertake steps to raise the quality of service it provides to its current and future clients. As part of its future plans and prospects the Company has outlined the following:

- Regional expansion for its MC Financing product
- Implementation of an integrated information system suited for the new operations and financial services of the company
- Introduction of leasing in the financial service of the company.
- Re-introduction and marketing of Auto loans (Brand new and used units) in order to increase the ratio on secured portfolios
- Increasing the generation of fleet accounts in the field motorcycle financing either by Salary Deduction or Corporate installment plans
- Activate the existing pawnshop license of its subsidiary
- Continuous growth in the portfolios of the Company's 3 main credit facilities (Factoring, Rx cash Line and Motorcycle Financing)

Funds Generation

Serving as the lifeblood of the firm's operations, the Company is aware of the need to have a constant flow of funds to support its lending operations. Although part of that requirement will be met by loans collections, the Company will need to have additional resources if it intends to undertake further expansion in the future. The Company intends to meet this additional requirement through the following:

- Availment of a short-term loan from banks;
- Availment of additional clean credit lines from banks;
- Acceptance of private placements under the 19 lender rule
- Disposal of other acquired assets such as real estate properties
- Possible set-up of a Rural Bank

Discussion of Past Financial Performance

As of December 31, 2008

Results of Operations

Audited net income for the year ending December 31, 2008 was ₱ 5.47million. This is a decrease of ₱ 9.58million or 63.6% lower than the P15.05million net income of 2007.. Operating expense is at ₱ 39.44million as of year-end. This is an increase of 42.2% compared to last year's operating expenses of ₱ 27.73million. The increase in operating expenses is primarily a result from the clean-up of accounts triggered by the computerization program we started in 2008.

Financial Condition and Capital Resources

For the year ended December 2008, the company's total assets reached ₱ 363.73million. The increase in assets was 0.6% of the total assets as of December 31, 2007. Increase in the company's receivables amounted to 11.1% from December of last year. Increase in borrowings by ₱ 2.3million is mainly due to increased loan production. Motorcycle financing beefed up its loan portfolio for the year. Four investment properties were sold during the year. The ₱ 50million prepayment with Honda Motor World Incorporated has been used up in 2008. Increase in fixed assets are additional generally transportation equipments and leasehold improvements. Likewise, the Company acquired an automated financial infrastructure for implementation in 2009.

Interest Income

The interest income year was short by 8.4% from interest income for the year 2007.

Net Interest Income

Interest expense did not vary that much. The Company's reduction in net interest income is attributable mainly with the reduction in interest income by ₱ 4.3million. The reduction in income is due to timing of loan releases primarily in the MC Financing product and the effect on the granting of promo and discount on Interest rates in 2007 to cope with the tight competition in the market and which effect we are feeling now.

Other Income

Other income decreased by ₱ 0.8million or 6.8% from December 2007.

Income Before Income Tax

Due to the significant increase on operating expenses as mentioned above, income before income tax decreased by 69.4% from December 2007.

Net Income

The Company posted a net income of ₱ 5.47million compared to ₱ 15.05million in 2007 or a decrease of 63.6%.

As of December 31, 2007**Results of Operations**

Audited net income for the year ending December 31, 2007 was ₱ 15.05million. This is a decrease of P1.15million or 7% over the net income of 2006 amounting to ₱ 16.2million. Operating expenses of ₱ 27.7million as of year-end, this is an increase of 12.74% compared to last year's operating expenses of ₱24.6million.

Financial Condition and Capital Resources

For the year ended December 2007, the company's total assets reached ₱361.46 million. The increase in assets was 54.5% of the total assets as of December 31, 2006. Increase in the company's receivables amounted to 13.67% from December last year. Increase in borrowings, mainly due to increased loan production, amounted to ₱64.08million or 81.1%. Motorcycle financing and factoring beefed up the loan portfolio for the year. Three investment properties were sold during the year. There was also a ₱75million equity investment in Amalgamated Investment Bancorporation shares of stock that was purchased by Makati Finance Corporation and a ₱ 50million prepayment with Honda Motor World Incorporated.

Interest Income

The interest income for the first year was short by 1.46% from interest income for the year 2006.

Net Interest Income

Interest expense increased by ₱ 3.33million, made the Company's net interest income decrease by 9.43%. This was due to promo and discount on Interest rates made during the year to cope with the tight competition in the market

Net Interest Income After Provisions

Net interest income after provisions further decreased by 7.15% from December 2006.

Other Income

Other income increased by Php 7.54 mm or 156.77% from December 2006. The increase in other income mainly was the sale of investment properties and a recovery of charged off account amounting to Php1mm.

Income Before Income Tax

Due to the significant increase on other income as abovementioned, income before income tax increased by 1.38% from December 2006.

Net Income

The Company posted a net income of Php15.04mm compared to Php16.2mm in 2006 or a decrease of 7%.

As of December 31, 2006**Results of Operations**

Net Income After Tax for the year was ₱ 16.2mm which is approximately ₱ 4.0mm more than the Net Income After Tax of the Company in 2005. This was primarily due to the increase in Net Interest Income by ₱ 11.5mm or 34.8% more than last year.

The increase in net interest income was primarily due to increased Revenues from MFC Factors and MC Financing both of which accounted for the increase in total loan receivables of ₱ 67.2mm or 52% more than the loan portfolio of 2005.

Return on equity ("ROE") for 2006 is also higher than in 2005 at 11.8% versus 9.9% respectively. Earnings Before Interest and Taxes also increased by 3.8% to 56.3% in 2006 from 52.5% in 2005. Year ending earnings per share also increased from ₱ 0.20 and Php 0.15 in 2006 and 2005 respectively.

Financial Condition and Capital Resources

For 2006, the company's total assets reached Php 233.9mm which is 39.6% or Php 66.4mm more than assets in the previous year. The increase in the Company's notes payable was due to the increase in loan productions for MFC Factors and MC Financing both of which considerably increased the loans receivable for the year.

Interest Income

Compared to the same period last year, interest income increased by 54.9%. This is due to the increase in loan receivables by 52.2%. The loan portfolio mix improved, the MC Financing loan portfolio increased by Php19.7mm or 96.6% from Php20.4mm in 2005.

Net Interest Income

The Company's net interest income increased by 34.8%. This was despite the increase in interest expense and notes payable of the Company.

Net Interest Income After Provisions

Net interest income after provisions increased by 24.5% from year 2005. Provision for probable losses was only Php 170 thousand compared to Php 1.2mm in 2005.

Other Income

Other income decreased by 45.0%.

Income Before Income Tax

Despite the decline in the other income and increase in operating expenses by 13.3% during the year, the income before income tax increased by 15.5%.

Net Income

The Company posted a net income of Php16.2mm compared to Php12.2mm in 2005, an increase of 32.9%.

Liquidity

Current ratio was at 2.1x by year-end, a decrease of 0.8x from last year but debt to equity ratio improved from 0.37x last year to 0.71x this year.

KEY PERFORMANCE INDICATORS:

Following are the top five (5) key performance indicators of the Company.

1. Asset Quality

MFC's asset quality improved in 2008 due to the sale of P2.5 Mn worth of non-performing assets on Investment Properties

2. Profitability

	<u>12/31/08</u>	<u>12/31/07</u>
Return on equity	3.10%	10.50%
EBIT Margin	37.37%	62.30%
Earnings per share	P0.03	P0.18

3. Liquidity

The ratio of liquid assets to total assets were 71.6% and 63.2% as of December 31, 2008 and 2007 respectively.

4. Cost Efficiency

The ratio of total operating expenses (excluding provision for losses) to the total operating income for December 31, 2008 and 2007 were 83.32% and 51.50%, respectively.

5. Capital Adequacy

The capital adequacy ratio of the Company covering credit risks as of December 31, 2008 and 2007 were 126.01% and 123.31%, respectively.

TRENDS, EVENTS OR UNCERTAINTIES WITH MATERIAL IMPACT ON LIQUIDITY

There are no known trends, events or uncertainties that will have a material impact on the company's liquidity.

EVENTS THAT WILL TRIGGER DIRECT OR CONTINGENT FINANCIAL OBLIGATION

There are no events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation.

CAPITAL EXPENDITURES

As planned, the Company went into its computerization project and spent on major leasehold improvements/office renovation.

TRENDS, EVENTS OR UNCERTAINTIES WITH MATERIAL IMPACT ON SALES

There are no known trends, events or uncertainties with material impact on sales.

SIGNIFICANT ELEMENTS OF INCOME OR LOSS

Significant elements of net income of the Company for 2008 came from its continuing operations.

SEASONAL ASPECTS

There was no seasonal aspect that had material effect on the Company's financial condition or results of operation

PLANS AND PROSPECTS

The Company has outlined plans geared towards its goal of improving the quality of its service and further increasing its shareholder value. The Company has chosen to adopt sales and marketing strategies that are expected to strengthen its foothold in its existing niche markets and, at the same time, enter new niche markets. The Company also intends to expand its distribution reach through the geographical expansion of its trading areas. Further, the Company intends to go on computerization to efficiently facilitate, monitor and account its day-to-day transactions, thus providing Management with proper tools in evaluating the Company's performance.

The Company's future plans and prospects are primarily into regional expansion to widen its market base, changes it intends to undertake and implement with regard to its lending activities' process and systems, funds generation and computerization.

Lending Activities

Being its core operations, the Company has formulated plans to expand its lending operations that will guarantee sustained growth. Its lending activities and loan products will still be focused on the niche consumer loan market and SME markets, due to the experience it has gained from these segments. MFC will also undertake steps to raise the quality of service it provides to its current and future clients. As part of its future plans and prospects the Company has outlined the following:

- Regional expansion for its MC Financing product
- Implementation of an integrated information system suited for the new operations and financial services of the company
- Introduction of leasing in the financial service of the company.
- Re-introduction and marketing of Auto loans (Brand new and used units) in order to increase the ratio on secured portfolios

- Increasing the generation of fleet accounts in the field motorcycle financing either by Salary Deduction or Corporate installment plans
- Activate the existing pawnshop license of its subsidiary
- Continuous growth in the portfolios of the Company's 3 main credit facilities (Factoring, Rx cash Line and Motorcycle Financing)

FUNDS GENERATION

Serving as the lifeblood of the firm's operations, the Company is aware of the need to have a constant flow of funds to support its lending operations. Although part of that requirement will be met by loans collections, the Company will need to have additional resources if it intends to undertake further expansion in the future. The Company intends to meet this additional requirement through the following:

- Availment of a short-term loan from banks;
- Availment of additional clean credit lines from banks;
- Acceptance of private placements under the 19 lender rule
- Disposal of other acquired assets such as real estate properties
- Possible set-up of a Rural Bank

There are a total of 98 stockholders as of March 31, 2009.

As of August 31, 2007, market prices for MFC stock were at P1.94 (high) and P1.94 (low). There were no trades made from January 2007 to date.

DIVIDENDS

As approved by the board of directors and upon concurrence by the stockholders of the Company, an annual dividend declaration policy was set up, amount of which will be equivalent to 30% of the Company's net earnings for the year. To date, the Board of Directors has not proposed declaration of dividend of the Company's net earnings for year 2008.

NAMES OF THE UNDERWRITERS OR IDENTITY OF PERSONS TO WHOM THE SECURITIES WERE SOLD

There were no underwriters or persons to whom the stock dividends were sold.

SECURITIES SOLD FOR CASH

There were no stock dividends which were sold for cash.

EXEMPTION FROM REGISTRATION CLAIMED

Pursuant to SRC Rule No. 10 Section D, the declaration of stock dividends is an exempt transaction. The approval of the Commission for the stock dividend declaration was not sought by the Company.

COMPLIANCE WITH LEADING PRACTICE ON CORPORATE GOVERNANCE

Makati Finance shall set up an evaluation system that will determine and measure compliance with the Manual on Corporate Governance.

Measures undertaken by MFC for full compliance with the adopted leading practices on good corporate governance includes election of independent directors and creation of the Nomination Committee starting year 2003 and continued up to the present time. Each incumbent director of MFC underwent seminars on good corporate governance in year 2003. To monitor compliance, the board of directors designated Mr. Albert J. Batacan as compliance officer. The Company submitted to the SEC its Revised Anti-Money Laundering Manual as mandated by Republic Act 9160, as amended by Republic Act. No. 9194 on October 28, 2004. Lastly, the Company's By-Laws shall be amended to incorporate provisions on independent directors. Deviations from the Company's Manual on Corporate Governance are not applicable. With regards to plans on improving corporate governance of the Company, Makati Finance is already adopting the International Accounting Standards in the presentation of its financial statements with the help of its external auditors. Communications are open with SGV with regards to further compliance with the IAS.

STATEMENT OF MANAGEMENT'S RESPONSIBILITY

The management of Makati Finance Corporation is responsible for all information and representations contained in the audited financial statements as of December 31, 2008. The financial statements have been prepared in conformity with generally accepted account accounting principles in the Philippines and reflect amounts that are based on best estimates and informed judgement of management with appropriate consideration to materiality.

It is in this regard, management maintains a system of accounting and reporting which provides for the necessary internal controls to ensure that the transactions are properly authorized and recorded, assets are safeguarded against unauthorized use or disposition and liabilities recognized. The management likewise discloses to the company's audit committee and to its external auditor (i) all significant deficiencies in the design or operation of internal controls that could adversely affect its ability to record, process, and report financial data (ii) material weaknesses in the internal controls; (iii) and fraud that involves management or other employees who exercise significant roles in internal controls.

The Board of Directors reviews the financial statements before such statements are approved and submitted to the stockholders of the company.

Sycip, Gorres & Velayo, the independent auditors appointed by the Board of Directors and Stockholders, have audited the financial statements of the company in accordance with generally accepted auditing standards in the Philippines and have expressed their opinion on the fairness of presentation upon completion of such audit, in the report to the Company's Board of Directors and stockholders as shown in the succeeding page.

INDEPENDENT AUDITORS' REPORT

The Stockholders and the Board of Directors
Makati Finance Corporation
2nd Floor, Makati Finance Centre
7823 Makati Avenue, Makati City

We have audited the accompanying financial statements of Makati Finance Corporation, which comprise the balance sheets as at December 31, 2008 and 2007, and the statements of income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2008, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of Makati Finance Corporation as of December 31, 2008 and 2007, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2008 in accordance with Philippine Financial Reporting Standards.

MAKATI FINANCE CORPORATION
NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

Makati Finance Corporation (the Company) operates as a domestic corporation engaged in the sale of various financial products and services, catering generally to the consumer market. The Company's principal place of business is at 2nd Floor, Makati Finance Centre, 7823 Makati Avenue, Makati City. The Company was listed in the Philippine Stock Exchange on January 6, 2003 and is majority-owned by Amalgamated Investment Bancorporation (AIB).

The accompanying financial statements of the Company were endorsed for approval by the Audit Committee on April 1, 2009 and authorized for issue by the Board of Directors (BOD) on April 3, 2009.

2. Summary of Significant Accounting Policies

Basis of Preparation

The accompanying financial statements have been prepared on a historical basis, except for available-for-sale (AFS) investments that have been measured at fair value, and these financial statements are presented in Philippine Peso (₱), the Company's functional currency.

Statement of Compliance

The financial statements of the Company have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

Adoption of New and Amended Accounting Standards and Interpretations

The accounting policies adopted in the preparation of the financial statements are consistent with those of the previous financial year except for the adoption of the following Philippine Interpretations which became effective on January 1, 2008, and amendments to existing standards that became effective on July 1, 2008.

- Philippine Interpretation International Financial Reporting Interpretations Committee (IFRIC) 11, *PFRS 2 - Group and Treasury Share Transactions*, requires arrangements whereby an employee is granted rights to an entity's equity instruments to be accounted for as an equity-settled scheme by the entity even if (a) the entity chooses or is required to buy those equity instruments (e.g., treasury shares) from another party, or (b) the shareholder(s) of the entity provide the equity instruments needed. It also provides guidance on how subsidiaries, in their separate financial statements, account for such schemes when their employees receive rights to the equity instruments of the parent. Adoption of this Interpretation did not have an impact on the Company's financial statements because it does not have an existing share-based payment scheme.

- Philippine Interpretation IFRIC 12, *Service Concession Arrangements*, covers contractual arrangements arising from public-to-private service concession arrangements if control of the assets remains in public hands but the private sector operator is responsible for construction activities as well as for operating and maintaining the public sector infrastructure. Adoption of this Interpretation did not have any impact on the Company's financial statements as it does not have such contractual arrangements.
- Philippine Interpretation IFRIC 14, *PAS 19 - The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction*, provides guidance on how to assess the limit on the amount of surplus in a defined benefit plan that can be recognized as an asset under PAS 19, *Employee Benefits*. Adoption of this Interpretation did not have an impact on the Company's financial statements as its defined benefit scheme is currently unfunded.
- Amendments to Philippine Accounting Standards (PAS) 39, *Financial Instruments: Recognition and Measurement*, and PFRS 7, *Financial Instruments: Disclosure - Reclassification of Financial Assets*. The amendments to PAS 39 introduce the possibility of reclassification of securities out of the trading category in rare circumstances and reclassification to the loans and receivable category if there is intent and ability to hold the securities for the foreseeable future or to held-to-maturity if there is intent and ability to hold the securities until maturity. The amendments to PFRS 7 introduce the disclosures relating to these reclassifications. Adoption of these amendments did not have any impact on the Company's financial statements since the Company did not avail of the reclassification allowed under these amendments.

Future Changes in Accounting Policies

The Company will adopt the Standards and Interpretations enumerated below when these become effective. The Company does not expect the adoption of these new and amended PFRS and Philippine Interpretations to have significant impact on its financial statements.

Effective in 2009

- PFRS 1, *First-time Adoption of Philippine Financial Reporting Standards - Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate*
This Amendment allows an entity, in its separate financial statements, to determine the cost of investments in subsidiaries, jointly controlled entities or associates (in its opening PFRS financial statements) as one of the following amounts: a) cost determined in accordance with PAS 27; b) at the fair value of the investment at the date of transition to PFRS, determined in accordance with PAS 39; or c) previous carrying amount (as determined under generally accepted accounting principles) of the investment at the date of transition to PFRS.
- Amendment to PFRS 2, *Share-based Payment - Vesting Condition and Cancellations*
The Standard has been revised to clarify the definition of a vesting condition and prescribes the treatment for an award that is effectively cancelled. It defines a vesting condition as a condition that includes an explicit or implicit requirement to provide services. It further requires nonvesting conditions to be treated in a similar fashion to market conditions. Failure to satisfy a nonvesting condition that is within the control of either the entity or the counterparty is accounted for as a cancellation. However, failure to satisfy a nonvesting condition that is beyond the control of either party does not give rise to a cancellation.

- PFRS 8, *Operating Segments*
This Amendment will replace PAS 14, *Segment Reporting*, and adopts a full management approach to identifying, measuring and disclosing the results of an entity's operating segments. The information reported would be that which management uses internally for evaluating the performance of operating segments and allocating resources to those segments. Such information may be different from that reported in the balance sheet and statement of income and the company will provide explanations and reconciliations of the differences. This Standard is only applicable to an entity that has debt or equity instruments that are traded in a public market or that files (or is in the process of filing) its financial statements with a securities commission or similar party.
- Amendment to PAS 1, *Presentation of Financial Statements*
This Amendment introduces a new statement of comprehensive income that combines all items of income and expenses recognized in the profit or loss together with 'other comprehensive income'. Entities may choose to present all items in one statement, or to present two linked statements, a separate statement of income and a statement of comprehensive income. This Amendment also requires additional requirements in the presentation of the balance sheets and equity as well as additional disclosures to be included in the financial statements.
- Amendment to PAS 23, *Borrowing Costs*
The Standard has been revised to require capitalization of borrowing costs when such costs relate to a qualifying asset. A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use or sale.
- Amendments to PAS 27, *Consolidated and Separate Financial Statements - Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate*
These Amendments introduce changes in respect of the holding companies' separate financial statements, including (a) the deletion of 'cost method', making the distinction between pre- and post-acquisition profits no longer required; and (b) in cases of reorganizations where a new parent is inserted above an existing parent of the group (subject to meeting specific requirements), the cost of the subsidiary is the previous carrying amount of its share of equity items in the subsidiary rather than its fair value. All dividends will be recognized in the statement of income. However, the payment of such dividends requires the entity to consider whether there is an indicator of impairment.

- Amendment to PAS 32, *Financial Instruments: Presentation* and PAS 1, *Presentation of Financial Statements - Puttable Financial Instruments and Obligations Arising on Liquidation*
These Amendments specify, among others, that puttable financial instruments will be classified as equity if they have all of the following specified features: (a) the instrument entitles the holder to require the entity to repurchase or redeem the instrument (either on an ongoing basis or on liquidation) for a pro rata share of the entity's net assets; (b) the instrument is in the most subordinate class of instruments, with no priority over other claims to the assets of the entity on liquidation; (c) all instruments in the subordinate class have identical features; (d) the instrument does not include any contractual obligation to pay cash or financial assets other than the holder's right to a pro rata share of the entity's net assets; and (e) the total expected cash flows attributable to the instrument over its life are based substantially on the profit or loss, a change in recognized net assets, or a change in the fair value of the recognized and unrecognized net assets of the entity over the life of the instrument.
- Philippine Interpretation IFRIC 13, *Customer Loyalty Programmes*
This Interpretation requires customer loyalty award credits to be accounted for as a separate component of the sales transaction in which they are granted and therefore part of the fair value of the consideration received is allocated to the award credits and realized in income over the period that the award credits are redeemed or expire.
- Philippine Interpretation IFRIC 16, *Hedges of a Net Investment in a Foreign Operation*
This Interpretation provides guidance on identifying foreign currency risks that qualify for hedge accounting in the hedge of a net investment; where within the group, the hedging instrument can be held in the hedge of a net investment; and how an entity should determine the amount of foreign currency gains or losses, relating to both the net investment and the hedging instrument, to be recycled on disposal of the net investment.

Effective in 2010

- Revised PFRS 3, *Business Combinations* and PAS 27, *Consolidated and Separate Financial Statements*
Revised PFRS 3 introduces a number of changes in the accounting for business combinations that will impact the amount of goodwill recognized, the reported results in the period that an acquisition occurs, and future reported results. Revised PAS 27 requires, among others, that: (a) change in ownership interests of a subsidiary (that do not result in loss of control) will be accounted for as an equity transaction and will have no impact on goodwill nor will it give rise to a gain or loss; (b) losses incurred by the subsidiary will be allocated between the controlling and noncontrolling interests (previously referred to as 'minority interests'); even if the losses exceed the noncontrolling equity investment in the subsidiary; and (c) on loss of control of a subsidiary, any retained interest will be remeasured to fair value and this will impact the gain or loss recognized on disposal. The changes introduced by revised PFRS 3 and PAS 27 must be applied prospectively, while changes introduced by revised PAS 27 must be applied retrospectively, with a few exceptions. The changes will affect future acquisitions and transactions with non-controlling interest.

- Amendment to PAS 39, *Financial Instruments: Recognition and Measurement - Eligible Hedged Items*
Amendment to PAS 39 will be effective on July 1, 2009, which addresses only the designation of a one-sided risk in a hedged item, and the designation of inflation as a hedged risk or portion in particular situations. The Amendment clarifies that an entity is permitted to designate a portion of the fair value changes or cash flow variability of a financial instrument as a hedged item.
- Philippine Interpretation IFRIC 17, *Distribution of Non-cash Assets to Owners*
This Interpretation covers accounting for two types of non-reciprocal distributions of assets by an entity to its owners acting in their capacity as owners. The two types of distribution are:
 - a. distributions of non-cash assets (e.g., items of property, plant and equipment, businesses as defined in PFRS 3, ownership interests in another entity or disposal groups as defined in PFRS 5); and
 - b. distributions that give owners a choice of receiving either non-cash assets or a cash alternative.

This Interpretation addresses only the accounting by an entity that makes a non-cash asset distribution. It does not address the accounting by shareholders who receive such a distribution.

- Philippine Interpretation IFRIC 18, *Transfers of Assets from Customers*
This Interpretation covers accounting for transfers of items of property, plant and equipment by entities that receive such transfers from their customers. Agreements within the scope of this Interpretation are agreements in which an entity receives from a customer an item of property, plant and equipment that the entity must then use either to connect the customer to a network or to provide the customer with ongoing access to a supply of goods or services, or to do both. This Interpretation also applies to agreements in which an entity receives cash from a customer when that amount of cash must be used only to construct or acquire an item of property, plant and equipment and the entity must then use the item of property, plant and equipment either to connect the customer to a network or to provide the customer with ongoing access to a supply of goods or services, or to do both.

Effective in 2012

- Philippine Interpretation IFRIC 15, *Agreements for the Construction of Real Estate*
This Interpretation covers accounting for revenue and associated expenses by entities that undertake the construction of real estate directly or through subcontractors. This Interpretation requires that revenue on construction of real estate be recognized only upon completion, except when such contract qualifies as a construction contract to be accounted for under PAS 11, *Construction Contracts*, or involves rendering of services in which case revenue is recognized based on stage of completion. Contracts involving provision of services with the construction materials, and where the risks and rewards of ownership are transferred to the buyer on a continuous basis, will also be accounted for based on the stage of completion.

Improvements to PFRS

In May 2008, the International Accounting Standards Board issued its first omnibus of amendments to certain standards, primarily with a view to removing inconsistencies and clarifying wordings. The following are the separate transitional provisions for each standard, which become effective in 2009:

- *PFRS 5, Noncurrent Assets Held for Sale and Discontinued Operations*
When a subsidiary is held for sale, all of its assets and liabilities will be classified as held for sale under PFRS 5, even when the entity retains a noncontrolling interest in the subsidiary after the sale.
- *PAS 1, Presentation of Financial Statements*
Assets and liabilities classified as held for trading are not automatically classified as current in the balance sheet.
- *PAS 16, Property, Plant and Equipment*
This amendment replaces the term 'net selling price' with 'fair value less costs to sell', to be consistent with PFRS 5, *Noncurrent Assets Held for Sale and Discontinued Operations* and PAS 36, *Impairment of Assets*.

Items of property, plant and equipment held for rental that are routinely sold in the ordinary course of business after rental, are transferred to inventory when rental ceases and they are held for sale. Proceeds of such sales are subsequently shown as revenue. Cash payments on initial recognition of such items, the cash receipts from rents, and subsequent sales are all shown as cash flows from operating activities.

- *PAS 19, Employee Benefits*
This revises the definition of 'past service cost' to include reduction in benefits related to past services ('negative past service cost') and to exclude reduction in benefits related to future services that arise from plan amendments. Amendments to plans that result in a reduction in benefits related to future services are accounted for as a curtailment.

It revises the definition of 'return on plan assets' to exclude plan administration costs if they have already been included in the actuarial assumptions used to measure the defined benefit obligation.

It also revises the definition of 'short-term' and 'other long-term' employee benefits to focus on the point in time at which the liability is due to be settled and it deletes the reference to the recognition of contingent liabilities to ensure consistency with PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*.

- *PAS 23, Borrowing Costs*
This revises the definition of borrowing costs to consolidate the types of items that are considered components of 'borrowing costs', i.e., components of the interest expense calculated using the effective interest rate method.

- PAS 28, *Investments in Associates*

If an associate is accounted for at fair value in accordance with PAS 39, only the requirement of PAS 28 to disclose the nature and extent of any significant restrictions on the ability of the associate to transfer funds to the entity in the form of cash or repayment of loans applies.

An investment in an associate is a single asset for the purpose of conducting the impairment test. Therefore, any impairment test is not separately allocated to the goodwill included in the investment balance.

- PAS 29, *Financial Reporting in Hyperinflationary Economies*

This revises the reference to the exception that assets and liabilities should be measured at historical cost, such that it notes property, plant and equipment as being an example, rather than implying that it is a definitive list.

- PAS 31, *Interests in Joint Ventures*

If a joint venture is accounted for at fair value, in accordance with PAS 39, only the requirements of PAS 31 to disclose the commitments of the venturer and the joint venture, as well as summary financial information about the assets, liabilities, income and expense will apply.

- PAS 36, *Impairment of Assets*

When discounted cash flows are used to estimate 'fair value less costs to sell', additional disclosure is required about the discount rate, consistent with disclosures required when the discounted cash flows are used to estimate 'value in use'.

- PAS 38, *Intangible Assets*

Expenditure on advertising and promotional activities is recognized as an expense when the company either has the right to access the goods or has received the services. Advertising and promotional activities now specifically include mail order catalogues.

It deletes references to there being rarely, if ever, persuasive evidence to support an amortization method for intangible assets with finite lives that results in a lower amount of accumulated amortization than under the straight-line method, thereby effectively allowing the use of the unit-of-production method.

- PAS 39, *Financial Instruments: Recognition and Measurement*

Changes in circumstances relating to derivatives, specifically derivatives designated or de-designated as hedging instruments after initial recognition, are not reclassifications.

When financial assets are reclassified as a result of an insurance company changing its accounting policy in accordance with paragraph 45 of PFRS 4, *Insurance Contracts*, this is a change in circumstance, not a reclassification.

It removes the reference to a 'segment' when determining whether an instrument qualifies as a hedge.

Requires use of the revised effective interest rate (rather than the original effective interest rate) when re-measuring a debt instrument on the cessation of fair value hedge accounting.

APR 16 2010

- PAS 40, *Investment Properties*

It revises the scope (and the scope of PAS 16) to include property that is being constructed or developed for future use as an investment property. Where an entity is unable to determine the fair value of an investment property under construction, but expects to be able to determine its fair value on completion, the investment under construction will be measured at cost until such time as fair value can be determined or construction is complete.

Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized:

Interest income

Unearned interest income is recognized as income over the terms of the receivable using the effective interest rate (EIR) method. Interest income on nondiscounted receivables is accrued as earned likewise using EIR, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability.

Service charges

Service charges are recognized only upon collection or accrued when there is reasonable certainty as to its collectibility.

Dividend income

Dividend income is recognized when the Company's right to receive the payment is established.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less from dates of placement and that are subject to an insignificant risk of changes in value.

Financial Instruments

Date of recognition

The Company recognizes financial assets or financial liabilities in the balance sheet when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date.

Initial recognition of financial instruments

All financial assets and financial liabilities are recognized initially at fair value. Except for securities measured at fair value through profit or loss (FVPL), the initial measurement of financial assets includes transaction costs.

The Company classifies its financial assets in the following categories: Securities at fair value through profit or loss (FVPL), loans and receivables, held-to-maturity (HTM) investments, and AFS investments. Financial liabilities are classified into financial liabilities at FVPL and other financial liabilities carried at amortized cost. The classification depends on the purpose for which the investments were acquired and whether they are quoted in an active market. Management determines the classification of its investments at initial recognition and, where allowed and appropriate, re-evaluates such designation at every reporting date.

The Company's financial assets and liabilities are of the nature of loans and receivables and AFS investments, and other financial liabilities, respectively.

Determination of fair value

The fair value for financial instruments traded in active markets at the balance sheet date is based on its quoted market price or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs. When current bid and ask prices are not available, the price of the most recent transaction provides evidence of the current fair value as long as there has not been a significant change in economic circumstances since the time of the transaction.

For all other financial instruments not listed in an active market, the fair value is determined by using appropriate valuation methodologies. Valuation methodologies include net present value techniques, comparison to similar instruments for which market observable prices exist, and other relevant valuation models.

Day 1 profit

Where the transaction price in a non-active market is different to the fair value from other observable current market transactions in the same instrument or based on valuation methodologies whose variables include only data from observable markets, the Company recognizes the difference between the transaction price and fair value (a Day 1 profit) in the statement of income. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the statement of income when the inputs become observable or when the instrument is derecognized. For each transaction, the Company determines the appropriate method of recognizing the Day 1 profit amount.

Loans and receivables

Loans and receivables are nonderivative financial assets with fixed or determinable payments that are not quoted in an active market and for which the Company has no intention of trading. This accounting policy relates to balance sheet captions, "Cash and cash equivalents" and "Loans and receivables".

After initial measurement, loans and receivables are carried at amortized cost using the effective interest method, less allowance for impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees that are an integral part of the effective interest rate. The amortization is included in the statement of income. The losses arising from impairment of such loans and receivables are recognized in the statement of income.

Loans and receivables are stated at the outstanding balance, reduced by unearned discounts and capitalized interest on restructured loans and allowance for impairment and credit losses.

Loans and receivables are classified as nonperforming or considered impaired when the principal is past due, or when, in the opinion of management, collection of interest and principal is doubtful. These receivables will not be reclassified as performing until interest and principal payments are brought current or the receivables are restructured and future payments appear assured. Receivables are considered past due when three installment payments are in arrears.

Client's equity represents the amount withheld by the Company as protection against customer returns and allowances and other special adjustments, which is equivalent to 30% of the receivables factored. This is diminished proportionately as the receivables from factoring are collected.

AFS investments

AFS investments are those nonderivative financial assets that are designated as such or are not classified in any of the three preceding categories. These are purchased and held indefinitely, and may be sold in response to liquidity requirements or changes in market conditions. AFS investments pertain to golf club shares and an investment in an affiliated company.

After initial measurement, AFS investments are measured at fair value. The unrealized gains or losses arising from the fair valuation of AFS investments are excluded from reported earnings and are reported as "Net unrealized gain/loss on AFS investments" in equity.

When the investment is disposed of, the cumulative gain or loss previously recognized in equity is recognized in the statement of income. Interest earned on the AFS investment, is reported as interest income using the EIR method. Dividends earned are recognized in the statement of income when the Company's right to receive payment is established. The losses arising from impairment of such investments are recognized in the statement of income.

Notes payable and other borrowed funds

Issued financial instruments or their components, which are not designated at FVPL, are classified as notes payable or other appropriate account titles for such borrowed funds, where the substance of the contractual arrangements results in the Company having an obligation either to deliver cash or another financial asset to the holder, or to satisfy the obligation other than by the exchange of a fixed amount of cash or another financial asset for a fixed number of own equity shares. The components of issued financial instruments that contain both liability and equity elements are accounted for separately, with the equity component being assigned the residual amount after deducting from the instrument as a whole the amount separately determined as the fair value of the liability component on the date of issue.

After initial measurement, notes payable and other borrowings are subsequently measured at amortized cost using the EIR. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of EIR.

Other financial liabilities

Other financial liabilities are financial liabilities not designated as at FVPL where the substance of the contractual arrangements results in the Company having an obligation either to deliver cash or another financial asset to the holder or to satisfy the obligation other than by the exchange of a fixed amount of cash. After initial measurement, other financial liabilities are subsequently measured at amortized cost using the EIR method. Amortized cost is calculated by taking into account any discount or premium on the issue and fees that are an integral part of the EIR.

Derecognition of Financial Assets and Liabilities

Financial asset

A financial asset (or, where applicable a part of a financial asset or part of a group of financial assets) is derecognized when: (a) the rights to receive cash flows from the assets have expired; (b) the Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third-party under a “pass-through” arrangement; or (c) the Company has transferred its right to receive cash flows from the asset and either (i) has transferred substantially all the risks and rewards of the asset, or (ii) has neither transferred nor retained the risks and rewards of the asset but has transferred control of the asset.

Where the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Company’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Financial liability

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of income.

Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Impairment of Financial Assets

The Company assesses at each balance sheet date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that the borrower or a group of borrowers is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganization and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Loans and receivables

If there is objective evidence that a credit loss on loans and receivables has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows (excluding future credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of loss is recognized in the statement of income. Interest income continues to be accrued based on the original EIR of the asset. Receivables, together with the associated allowance accounts, are written off when there is no realistic prospect of future recovery and all collateral has been realized. If, in a subsequent year, the amount of the estimated credit loss decreases because of an event occurring after the impairment was recognized, the previously recognized credit loss is reduced by adjusting the allowance account. If a future write-off is later recovered, any amounts formerly charged are credited to the "Provision for impairment and credit losses" account in the statement of income.

The present value of the estimated future cash flows is discounted at the financial asset's original EIR. If a receivable has a variable interest rate, the discount rate for measuring any credit loss is the current effective interest rate, adjusted for the original credit risk premium.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. The methodology and assumptions used for estimating future cash flows are reviewed regularly by the Company to reduce any differences between loss estimates and actual loss experience.

AFS financial assets

In the case of equity investments classified as AFS financial assets, impairment would include a significant or prolonged decline in the fair value of the investments below its cost. When there is evidence of impairment loss, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognized in the statement of income - is removed from the statement of changes in equity and recognized in the statement of income. Impairment losses on equity investments are not reversed through the statement of income. Increases in fair value after impairment are recognized directly in the statement of changes in equity.

Investments in Subsidiaries

Subsidiaries pertain to all entities over which the Company has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights.

The Company's investments in subsidiaries are accounted for under the cost method less any accumulated impairment in value.

Impairment of investments in subsidiaries

The Company reviews its investments in subsidiaries for impairment. This includes considering certain indicators of impairment such as the following:

- significant underperformance relative to expected historical or projected operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and,
- significant negative industry or economic trends.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization and any impairment in value.

The initial cost of property and equipment consists of its purchase price, and any directly attributable costs to bring the asset to its working condition and location for its intended use. Expenditures incurred after the property and equipment have been put into operation, such as repairs and maintenance, are normally charged against operations in the year in which the costs are incurred. In situations where it can be clearly demonstrated that the expenditures have resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property and equipment beyond its originally assessed standard of performance, the expenditures are capitalized as an additional cost of property and equipment. When assets are retired or otherwise disposed of, the cost and the related accumulated depreciation and amortization are removed from the accounts and any resulting gain or loss is reflected as income or loss in the statement of income.

Depreciation and amortization are computed on a straight-line basis over the estimated useful lives of the assets as follows:

Furniture, fixtures and equipment	5 years
Leasehold rights and improvements	10 years or over the period of the lease, whichever is shorter
Transportation equipment	5 years

The useful lives and the depreciation and amortization method are reviewed periodically to ensure that the period and the method of depreciation and amortization are consistent with the expected pattern of economic benefits from items of property and equipment.

The carrying values of property and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amount, the assets are written down to their recoverable amount.

Investment Properties

Investment properties are measured initially at cost, including transaction costs. An investment property acquired through an exchange transaction is measured at fair value of the asset acquired unless the fair value of such an asset cannot be measured, in which case the investment property acquired is measured at the carrying amount of the asset given up. Subsequent to initial recognition, depreciable investment properties are carried at cost less accumulated depreciation and impairment in value.

Transfers are made to investment properties when, and only when, there is a change in use evidenced by ending of owner occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is a change in use evidenced by commencement of owner occupation or commencement of development with a view to sale.

Foreclosed properties are classified under investment properties from foreclosure date.

Expenditures incurred after the investment properties have been put into operation, such as repairs and maintenance costs, are normally charged against current operations in the period in which the costs are incurred.

Amortization of improvements is calculated on a straight-line basis over the estimated useful life of 15 years from the time of acquisition of the investment property.

Investment properties are derecognized when they have either been disposed of or when the investment property is permanently withdrawn from use and no future benefit is expected from its disposal. Any gains or losses on the derecognition of an investment property are recognized in the statement of income in the year of derecognition.

Software Costs

Software costs, included under "Other Assets" account in the balance sheet, include costs incurred relative to the development of the Company's software. Software costs are amortized over five years on a straight-line basis from the date of its actual use.

Impairment of Nonfinancial Assets

At each reporting date, the Company assesses whether there is any indication that its nonfinancial assets may be impaired. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Company makes a formal estimate of recoverable amount. Recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is assessed as part of the cash-generating unit to which it belongs. Where the carrying amount of an asset (or cash-generating unit) exceeds its recoverable amount, the asset (or cash-generating unit) is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or cash-generating unit).

An impairment loss is charged against operations in the year in which it arises, unless the asset is carried at a revalued amount, in which case the impairment loss is charged against the revaluation increment of the said asset.

For nonfinancial assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of income unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal, the depreciation expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining life.

Foreign Currency Transactions and Translation

Foreign currency-denominated assets and liabilities are translated to Philippine peso at the prevailing Philippine Dealing and Exchange Corp (PDex), formerly Philippine Dealing System, at the balance sheet date while foreign currency-denominated income and expenses are translated into their Philippine pesos equivalent based on the weighted average rate at transaction dates. Exchange gains or losses arising from foreign currency-denominated transactions and restatements of foreign currency-denominated assets and liabilities are credited to or charged against current operations.

Income Taxes

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is provided, using the balance sheet liability method, on all temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences with certain exceptions. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable income will be available against which the deductible temporary differences can be utilized. Deferred tax, however, is not recognized when it arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed as at balance sheet date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred income taxes relate to the same taxable entity and the same taxation authority.

Leases

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset. A reassessment is made after inception of the lease only if one of the following applies:

- a. there is a change in contractual terms, other than a renewal or extension of the arrangement;
- b. a renewal option is exercised or extension granted, unless that term of the renewal or extension was initially included in the lease term;
- c. there is a change in the determination of whether fulfillment is dependent on a specified asset;
or,
- d. there is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for scenarios (a), (c), or (d) above; and at the date of renewal or extension period for scenario (b).

Company as lessee

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognized as an expense in the statement of income on a straight-line basis over the lease term.

Provisions and Contingencies

Provisions are recognized when the Company has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of assets embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessment of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense.

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of an outflow of assets embodying economic benefits is remote. Contingent assets are not recognized in the financial statements but disclosed when an inflow of economic benefits is probable.

Borrowing Costs

Borrowing costs are generally expensed as incurred. Interest and other financing costs incurred during the construction period on borrowings used to finance property development are capitalized as part of development cost (included in real estate inventories, investment properties and property, plant and equipment). Capitalization of borrowing costs commences when the activities to prepare the asset are in progress and expenditures and borrowing costs are being incurred. The capitalization of these borrowing costs ceases when substantially all the activities necessary to prepare the asset for its intended use or sale are complete. If the carrying amount of the asset exceeds its recoverable amount, an impairment loss is recorded. Capitalized borrowing cost is based on the applicable weighted average borrowing rate from general borrowings and the actual borrowing costs eligible for capitalization for funds borrowed specifically.

Retirement Cost

The Company has a funded, noncontributory defined benefit retirement plan, administered by trustees, covering their permanent employees.

The retirement cost of the Company is determined using the projected unit credit method. Under this method, the current service cost is the present value of retirement benefits payable in the future with respect to services rendered in the current period. The liability recognized in the balance sheet in respect of defined benefit retirement plans is the present value of the defined benefit obligation on the balance sheet date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates on government bonds that have terms to maturity approximating the terms of the related retirement liability. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are credited to or charged against income when the net cumulative unrecognized actuarial gains and losses at the end of the previous period exceed 10% of the higher of the present value of the defined benefit obligation and the fair value of plan assets at that date. The excess actuarial gains or losses are recognized over the average remaining working life of the employees participating in the plan.

Past-service costs are recognized immediately in the statement of income, unless the changes to the retirement plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past service costs are amortized on a straight-line basis over the vesting period.

A previously recognized impairment loss is reversed by a credit to current operations to the extent that it does not restate the asset to a carrying amount in excess of what would have been determined (net of any accumulated depreciation and amortization) had no impairment loss been recognized for the asset in prior years.

Basic/Diluted Earnings Per Share

Basic/diluted earnings per share (EPS) is computed based on the weighted average number of common shares outstanding after giving retroactive effect to stock dividends declared and stock rights exercised during the year.

Subsequent Events

Post year-end events that provide additional information about the Company's position at the balance sheet date (adjusting events) are reflected in the Company's financial statements. Post year-end events that are not adjusting events, if any, are disclosed when material to the financial statements.

3. **Significant Accounting Judgments and Estimates**

The preparation of the financial statements in compliance with PFRS requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses, and disclosure of contingent assets and contingent liabilities. Future events may occur which will cause the assumptions used in arriving at the estimates to change. The effects of any change in estimates are reflected in the financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The following are the critical judgments and key assumptions that have a significant risk of material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Judgments

(a) Fair values of financial instruments

Where the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using internal valuation techniques using generally accepted market valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimates are used in establishing fair values. These estimates may include considerations of liquidity, volatility, and correlation (see Note 4).

(b) *Operating lease commitments*

The Company has entered into a contract of lease for the office space it occupies. The Company has determined that all significant risks and rewards of ownership on these properties will be retained by the lessor (see Note 22).

(c) *Distinction between investment properties and owner-occupied properties*

The Company determines whether a property qualifies as investment property. In making its judgment, the Company considers whether the property generates cash flows largely independent of the other assets held by an entity. Owner-occupied properties generate cash flows that are attributable not only to the property but also to the other assets used in the production or supply process.

Estimates

(a) *Impairment on AFS financial assets*

The Company treats AFS financial assets as impaired when there has been a significant or prolonged decline in the fair value below its cost or where other objective evidence of impairment exists. The determination of what is 'significant' or 'prolonged' requires judgment. The Company treats 'significant' generally as 20% or more and 'prolonged' as longer than 6 months for quoted equity securities. In addition, the Company evaluates other factors, including normal volatility in share price for quoted equities and the future cash flows and the discount factors for unquoted equities. The carrying values of AFS financial assets of the Company amounted to ₱75.15 million and ₱75.16 million as of December 31, 2008 and 2007, respectively (see Note 7).

(b) *Credit losses of loans and other receivables*

The Company maintains allowance for credit losses based on the result of the individual and collective assessment under PAS 39. Under the individual assessment, the Company is required to obtain the present value of estimated cash flows using the receivable's original effective interest rate. Impairment loss is determined as the difference between the receivables, carrying balance and the computed present value. Factors considered in an individual assessment are payment history, past due status and term. The collective assessment would require the Company to classify its receivables based on the credit risk characteristics (customer type, payment history, past-due status and term) of the customers. Impairment loss is then determined based on historical loss experience of the receivables grouped per credit risk profile. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect the period on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not exist currently. The methodology and assumptions used for the individual and collective assessments are based on management's judgment and estimate. Therefore, the amount and timing of recorded expense for any period would differ depending on the judgments and estimates made for the year. The carrying value of loans and other receivables amounted to ₱247.35 million and ₱222.54 million as of December 31, 2008 and 2007, respectively (see Note 8).

(c) *Impairment of nonfinancial assets*

Property and equipment and investment properties

The Company assesses impairment on its property and equipment and investment properties whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The factors that the Company considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and,
- significant negative industry or economic trends.

The Company recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is computed using the value in use approach. Recoverable amounts are estimated for individual assets or, if not possible, for the cash-generating unit to which the asset belongs.

The carrying values of property and equipment and investment properties amounted to ₱11.41 million and ₱8.15 million, respectively, as of December 31, 2008 and ₱3.54 million and ₱10.69 million, respectively, as of December 31, 2007 (see Notes 10 and 11).

(d) *Recognition of deferred tax assets*

The Company reviews the carrying amounts of deferred taxes at each balance sheet date and reduce deferred tax assets to the extent that it is no longer probable that sufficient taxable income will be available to allow all or part of the deferred tax assets to be utilized. However, there is no assurance that the Company will generate sufficient taxable income to allow all or part of deferred tax assets to be utilized. The Company looks at its projected performance in assessing the sufficiency of future taxable income. The carrying value of deferred tax assets amounted to ₱4.85 million and ₱5.04 million as of December 31, 2008 and 2007, respectively (see Note 17).

(e) *Present value of retirement obligation*

The determination of the obligation and cost of pension and other retirement benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, discount rates, expected returns on plan assets and salary increase rates. As of December 31, 2008 and 2007, the present value of the retirement obligation amounted to ₱1.10 million and ₱1.67 million, respectively (see Note 18).

(f) *Estimating useful lives of property and equipment and investment properties*

The Company estimates the useful lives of its property and equipment and investment properties based on the period over which these assets are expected to be available for use. The estimated useful lives of property and equipment are reviewed at least annually and are updated if expectations differ from previous estimates due to physical wear and tear and technical or commercial obsolescence on the use of these assets. It is possible that future results of operations could be materially affected by changes in estimates brought about by changes in factors mentioned above. The net book value of the Company's property and equipment and investment properties amounted to ₱11.41 million and ₱8.15 million as of December 31, 2008 and ₱3.54 million and ₱10.69 million as of December 31, 2007, respectively (see Notes 10 and 11).

4. **Fair Value Measurement**

The following table summarizes the carrying amounts and fair values of financial assets and financial liabilities on the balance sheets of the Company as of December 31:

	Carrying Value		Fair Value	
	2008	2007	2008	2007
Loans and Receivables				
Cash and cash equivalents	₱13,076,638	₱6,086,890	₱13,076,638	₱6,086,890
Loans and other receivables (see Note 8)				
Loans receivable				
Services	99,663,980	36,036,235	99,663,980	36,036,235
Consumer	55,543,321	48,061,781	55,543,321	48,061,781
Construction	47,023,160	3,780,931	47,023,160	3,780,931
Manufacturing	25,743,995	102,752,258	25,743,995	102,752,258
Small businesses/ entrepreneurs	8,743,637	5,311,286	8,743,637	5,311,286
Receivable from related parties	10,414,324	22,560,464	10,414,324	22,560,464
Notes receivable	222,353	4,042,000	222,353	4,042,000
	260,431,408	228,631,845	260,431,408	228,631,845
AFS investments (see Note 7)	75,150,000	75,160,000	75,150,000	75,160,000
Total Financial Assets	₱335,581,408	₱303,791,845	₱335,581,408	₱303,791,845
Other Financial Liabilities				
Notes payable	₱145,325,925	₱143,018,939	₱145,325,925	₱143,018,939
Accrued expenses	5,689,119	5,513,807	5,689,119	5,513,807
Accounts and other payables (see Note 15)				
Payable to suppliers	5,198,722	3,818,389	5,198,722	3,818,389
Others	2,685,873	252,046	2,685,873	252,046
Total Financial Liabilities	₱158,899,639	₱152,603,181	₱158,899,639	₱152,603,181

The methods and assumptions used by the Company in estimating the fair value of financial instruments follow:

Cash and cash equivalents and loans and other receivables

Carrying amounts approximate fair values due to the relatively short term maturities of these financial assets.

AFS investments

AFS quoted equity shares - Fair values are based on quoted prices published in markets.

AFS unquoted shares - Fair value of unquoted equity shares where the fair value is not reasonably determinable due the unpredictable nature of future cash flows and the lack of a suitable method of arriving at a reliable fair value, these are carried at cost.

Liabilities

Fair values of the Company's liabilities are estimated using the discounted cash flow methodology using the Company's current incremental borrowing rates for similar borrowings with maturities consistent with those remaining for the liability being valued. The discount rate used amounted to 5.0% to 6.7% in 2008 and 2007. The carrying amounts of accrued expenses and accounts and other payables approximate fair values due to their short-term maturities.

5. Financial Risk Management Objectives and Policies

Financial Risk

The main risks arising from the Company's financial instruments are credit risk, liquidity risk, interest rate risk and foreign exchange risk.

Credit risk and concentration of assets and liabilities

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company manages credit risk by setting limits for individual borrowers, and groups of borrowers and industry segments. The Company also monitors credit exposures, and continually assesses the creditworthiness of counterparties. In addition, the Company obtains security where appropriate, enters into collateral arrangements with counterparties, and limits the duration of exposures. Finally, credit applications go through a process of screening using the Company's credit standards to minimize risk.

The table below shows the maximum exposure to credit risk for the components of the balance sheet. The maximum exposure is shown gross, before the effect of mitigation through the use of master netting arrangements or collateral agreements.

	2008	2007
Cash and cash equivalents (excluding cash on hand)	₱12,319,688	₱6,026,890
Loans and other receivables (see Note 8)		
Loans receivable:		
Services	148,249,756	65,005,403
Consumer	83,113,442	57,421,719
Construction	66,875,943	5,401,330
Manufacturing	33,323,361	144,733,978
Small businesses/entrepreneurs	8,743,637	5,676,766
Receivable from related parties (see Note 19)	10,414,324	22,560,464
Notes receivable	222,353	4,042,000
	350,942,816	304,841,660
AFS financial assets (see Note 7)	75,150,000	75,160,000
Total credit risk exposure	₱438,412,504	₱386,028,550

The Company also focuses on markets and borrowers that have a relatively better capability to repay their loans. One example for this is the medical professional market where most doctors are able to pay because of their higher disposable income. Despite the systems and checks in place for the Company, there is no guarantee that none of its existing and future clients will default on a loan. An increase in loan defaults will have a negative effect on the Company's profitability.

The Company's motorcycle financing business has the motor itself as collateral in case the borrower defaults on its loan.

The Company has no significant credit risk concentration.

The table below summarizes the credit quality of the Company's loans and receivables that are neither past due and impaired as of December 31:

2008

	Neither past due nor impaired			Past due but not impaired	Impaired	Total
	High Grade	Medium Grade	Low Grade			
Loans and other receivables						
Loans receivable						
Services	₱54,091,330	₱46,384,781	₱30,961,496	₱16,812,149	₱4,741,307	₱152,991,063

Receivable from related parties	10,414,324	-	-	-	119,459	10,533,783
Notes receivable	222,353	-	-	-	-	222,353
	₱163,586,519	₱47,747,115	₱98,000,709	₱41,608,473	₱12,959,999	₱363,902,815

2007

	Neither past due nor impaired			Past due but not impaired	Impaired	Total
	High Grade	Medium Grade	Low Grade			
Loans and other receivables						
Loans receivable						
Services	₱45,867,863	₱1,589,942	₱6,238,632	₱11,308,966	₱7,979,555	₱72,984,958
Consumer	42,687,619	9,289,036	5,445,064	-	3,294,226	60,715,945
Construction	-	-	5,401,330	-	-	5,401,330
Manufacturing	22,436,284	23,072,084	69,861,320	29,364,290	1,221,975	145,955,953
Small businesses/ entrepreneurs	1,665,969	-	-	4,010,797	-	5,676,766
Receivable from related parties	20,304,417	2,256,047	-	-	-	22,560,464
Notes receivable	4,042,000	-	-	-	-	4,042,000
	₱137,004,152	₱36,207,109	₱86,946,346	₱44,684,053	₱12,495,756	₱317,337,416

The credit quality of loans and receivables was determined as follows:

- High grade pertains to receivables with no default in payment.
- Medium grade pertains to receivables with up to 3 defaults in payment.
- Low grade pertains to receivables with more than 3 defaults in payment.

Liquidity risk

The Company seeks to manage its liquidity profile to be able to service its maturing debts and to finance capital requirements. The Company maintains a level of cash and cash equivalents deemed sufficient to finance its operations. As part of its liquidity risk management, the Company regularly evaluates its projected and actual cash flows. It also continuously assesses conditions in the financial markets for opportunities to pursue fund-raising activities. Fund-raising activities may include bank loans and advances from related parties.

The table summarizes the maturity profile of the Company's financial liabilities as of December 31, 2008 and 2007 based on undiscounted contractual payments.

	2008				Total
	< 1 year	1 to < 2 years	2 to < 3 years	3 to < 5 years

Accrued expenses	5,513,807	-	-	-	5,513,807
Interest expense payable	2,420,750	-	-	-	2,420,750
Accounts and other payables					
Payable to suppliers	3,818,389	-	-	-	3,818,389
Others	252,046	-	-	-	252,046
	₱155,023,931	₱-	₱-	₱-	₱155,023,931

Interest rate risk

The profitability of the Company may be influenced by changes in the level of interest rates. In the event that interest rates go up significantly, less people will be inclined to avail of a loan. The Company funds its loan operations through a combination of the operational cash flow and borrowings from related parties. Any increase in interest rates will cause the Company to incur more expenses for every peso they earn in interest income.

The Company follows a prudent policy on managing its assets and liabilities so as to ensure that exposure to fluctuations in interest rates are kept within acceptable limits. The interest rates reflect the prevailing market interest rates. The rates are benchmarked against the applicable treasury bills and MART rate for most of the peso-denominated investments.

The following table demonstrates the sensitivity of the Company's profit before tax and equity to a reasonably possible change in interest rates as of December 31, 2008 and 2007, with all variables held constant (through the impact on fixed rate lendings and borrowings and changes in fair value of financial assets through FVPL).

Notes payable

	Effect on profit before tax	
	Change in basis points	
	+100 basis points	-100 basis points
December 31, 2008	(P1,453,259)	P1,453,259
December 31, 2007	(1,430,189)	1,430,189

There is no other impact on the Company's equity other than those already affecting the net income.

Foreign exchange risk

The Company's foreign exchange risk results primarily from movements in the Philippine Peso (PHP) against the United States Dollar (USD). The Company's USD-denominated financial asset pertains to loans and receivables amounting to nil and P2.54 million as of December 31, 2008 and 2007, respectively. Accordingly, the Company's exposure to foreign exchange risk is minimal

6. Cash and Cash Equivalents

This account consists of:

	2008	2007
Cash on hand and in banks	P13,076,638	P4,086,890
Short-term placements	-	2,000,000
	P13,076,638	P6,086,890

Cash in banks earns interest at the prevailing bank deposit rates. Short-term placements are made for varying periods of up to three months depending on the immediate cash requirements of the Company and earn interest at the prevailing short-term placement rate.

Interest income on cash in banks and short-term placements amounted to ₱0.09 million and ₱0.61 million in 2008 and 2007, respectively.

7. Available-for-Sale Financial Assets

This account pertains to golf club shares which are carried at fair value, net of unrealized loss and allowance for impairment losses and investment in AIB which is carried at cost. Details of these investments follow:

	2008	2007
Cost	₱78,477,008	₱78,477,008
Net unrealized loss	(100,000)	(90,000)
Allowance for impairment losses (see Note 13)	(3,227,008)	(3,227,008)
At December 31	₱75,150,000	₱75,160,000

On September 12, 2007, the Company purchased 9,000,000 shares of stocks of AIB for a total consideration of ₱75.00 million. This investment is accounted for at cost due to a lack of reliable method to establish fair value. On January 11, 2008, AIB declared dividends amounting to ₱5.36 million which were received by the Company during the year.

Movements in net unrealized losses on AFS financial assets follow:

	2008	2007
Balance at beginning of year	₱90,000	₱110,000
Change in fair value recognized in equity	10,000	(20,000)
Balance at end of year	₱100,000	₱90,000

8. Loans and Other Receivables

This account consists of:

	2008	2007
Loans receivable:		
Services	₱152,991,063	₱72,984,958
Consumer	83,533,330	60,715,945
Construction	66,875,943	5,401,330
Manufacturing	36,991,910	145,955,953
Small businesses/entrepreneurs	12,754,433	5,676,766
Related parties (see Note 19)	10,533,783	22,560,464
Notes receivable	222,353	4,042,000
	363,902,815	317,337,416
Unearned interest income	(52,964,447)	(38,260,157)
Client's equity	(50,623,599)	(44,036,548)
Allowance for impairment losses (see Note 13)	(12,959,999)	(12,495,756)
	₱247,354,770	₱222,544,955

The classes of loans receivable are subdivided according to loan grants to different industries.

As of December 31, 2008 and 2007, nonperforming receivables under loans receivable amounted to ₱12.96 million and ₱13.14 million, respectively.

Interest rates on loans receivable ranges from 1.25% to 3.50% plus gross receipts tax per month while interest on notes receivable amounted to 5% of the principal balance in 2008 and 2007.

Other receivables consist of lease contract receivables, sales contract receivables and accrued interest receivable.

Interest income earned from loans receivables amounted to ₱46.51 million and ₱50.24 million in 2008 and 2007, respectively.

The analysis of loans and other receivables that were past due but not impaired follows:

December 31, 2008

	Neither Past Due nor Impaired	Past Due but not Impaired					Total	Impaired	Total
		<30 days	30-60 days	61-90 days	91-120 days	>120 days

9. Investment in Subsidiaries

This account consists of:

	Percentage of ownership	2008	2007
Acquisition cost:			
Commercial and Consumer Credit Corporation (3C)	100%	₱1,000,000	₱1,000,000
Global Credit and Management Group/3C (GCMGI/3C)	51%	1,000,000	1,000,000
3C Pawnshop	100%	100,000	100,000
		2,100,000	2,100,000
Allowance for impairment losses (see Note 13)		(2,000,000)	(2,000,000)
		₱100,000	₱100,000

The Company discontinued applying the equity method for its investments in 3C and GCMGI/3C since the acquisition costs were reduced to zero due to the accumulated share in net losses of these subsidiaries. 3C and GCMGI/3C have ceased operations in 1999 and 1996, respectively.

As of December 31, 2008, 3C Pawnshop has not yet started commercial operations.

10. Investment Properties

The rollforward analysis of this account follows:

	2008		Total
	Land	Improvements	
Cost			
At January 1	₱7,728,043	₱8,883,678	₱16,611,721
Disposals	(3,293,691)	(1,592,637)	(4,886,328)
At December 31	4,434,352	7,291,041	11,725,393
Accumulated Depreciation and Amortization			
At January 1	-	3,484,828	3,484,828

At December 31	-	2,555,732	2,555,732
Allowance for Impairment Losses (see Note 13)	1,019,533	-	1,019,533
Net Book Value	₱3,414,819	₱4,735,309	₱8,150,128

	2007		
	Land	Improvements	Total
Cost			
At January 1	₱7,783,521	₱13,515,644	₱21,299,165
Reclassification	1,149,591	(1,149,591)	-
Disposals	(1,205,069)	(3,482,375)	(4,687,444)
At December 31	7,728,043	8,883,678	16,611,721
Accumulated Depreciation and Amortization			
At January 1	-	5,231,971	5,231,971
Depreciation and amortization	-	531,910	531,910
Disposals/others	-	(2,279,053)	(2,279,053)
At December 31	-	3,484,828	3,484,828
Allowance for Impairment Losses (see Note 13)	648,710	1,785,282	2,433,992
Net Book Value	₱7,079,333	₱3,613,568	₱10,692,901

The aggregate fair value of the investment properties of the Company amounted to ₱9.82 million and ₱12.88 million as of December 31, 2008 and 2007, respectively. In 2008 and 2007, the Company sold certain investment properties at a gain of ₱2.30 million and ₱2.10 million, respectively.

The fair value of the Company's investment properties was estimated on the basis of recent sales of similar properties in the same areas taking into account the economic conditions prevailing at the time the valuations were made.

11. Property and Equipment

The rollforward analysis of this account follows:

	2008			Total
	Furniture, Fixtures and Equipment	Leasehold Rights and Improvements	Transportation Equipment

Net Book Value	₱143,660	₱-	₱3,396,831	₱3,540,491

12. Other Assets

This account consists of:

	2008	2007
Prepaid expenses	₱1,993,453	₱492,567
Motorcycle inventory	1,291,000	1,861,274
Advances to a supplier	-	35,512,875
Software costs	-	250,775
Miscellaneous	352,994	182,958
	₱3,637,447	₱38,300,449

Motorcycle inventory pertains to repossessed units from the Company's motorcycle financing business.

In 2007, the Company advanced ₱50.00 million to its supplier at 7% interest per annum. This advance, including accrued interest, is settled through the issuance of motorcycle inventories. Outstanding balance amounted to nil and ₱35.51 million as of December 31, 2008 and 2007, respectively.

The movements in software costs follow:

	2008	2007
At January 1	₱250,775	₱352,265
Additions	-	48,510
Amortization for the year	(250,775)	(150,000)
At December 31	₱-	₱250,775

13. Allowance for Impairment and Credit Losses

Movements in allowance for credit losses follow:

Impairment Assessment

The main considerations for impairment assessment include whether any payments are overdue or if there are any known difficulties in the cash flows of the counterparties.

The Company assesses impairment of its loans and receivables into two areas: individually assessed allowances and collectively assessed allowances.

The Company determines allowance for each significant receivable on an individual basis. Among the items that the Company considers in assessing impairment is the inability to collect from the counterparty based on the contractual terms of the receivables. Receivables included in the specific assessment are the accounts that have been endorsed to the legal department, non-moving accounts receivable, and accounts of defaulted agents.

For the collective assessment, allowances are assessed for receivables that are not individually significant and for individually significant receivables where there is no objective evidence yet of individual impairment. Impairment losses are estimated by taking into consideration the age of the receivables, past collection experience and other factors that may affect collectibility.

The total impairment and credit losses on the receivables recognized in statement of income amounted to ₱0.46 million and ₱0.45 million for the years ended December 31, 2008 and 2007, respectively.

Movements in allowance for impairment losses follow:

	2008	2007
At January 1		
Investment properties	₱2,433,992	₱1,785,282
AFS investments	3,227,008	3,227,008
Investment in an associate and subsidiaries	2,000,000	2,000,000
	<u>7,661,000</u>	<u>7,012,290</u>
Recoveries	(1,414,459)	-
Provisions	-	648,712
At December 31		
Investment properties (see Note 10)	1,019,533	2,433,992
AFS investments (see Note 7)	3,227,008	3,227,008
Investment in an associate and subsidiaries (see Note 9)	2,000,000	2,000,000
	<u>₱6,246,541</u>	<u>₱7,661,000</u>

14. Notes Payable

This represents unsecured short-term loans from the Company's stockholders (see Note 19) with interest rates ranging from 8.00% to 11.83% per annum in 2008 and 2007.

Notes payable maturing within one year from the respective balance sheet dates amounted to ₱145.32 million and ₱143.02 million as of December 31, 2008 and 2007, respectively. Interest expense on these notes payable amounted to ₱11.32 million in 2008 and ₱11.50 million in 2007.

15. Accounts and Other Payables

This account consists of:

	2008	2007
Payable to suppliers	₱5,198,722	₱3,818,389
Taxes payable	979,990	899,718
SSS, Medicare and HDMF payable	43,053	54,554
Other payables	2,771,669	252,046
	<u>₱8,993,434</u>	<u>₱5,024,707</u>

Accounts and other payables are normally settled in 30 days term.

16. Equity

On June 19, 2008, the BOD approved the declaration of 2.51% stock dividends in the aggregate amount of ₱2,257,147 in favor of the stockholders of record as of July 17, 2008, with a payment date not later than August 12, 2008. On the same date, the BOD also approved the declaration of cash dividends amounting to ₱2,257,147. Fractional shares related to this declaration were settled in cash amounting to ₱35.

In 2007, the Company received an additional capital infusion from its stockholders for their subscription of 48,543,689 shares to be issued out of the proposed increase in authorized capital stock from 90 million common shares to 300 million common shares with a par value of ₱1 per share. This was recorded as deposits for future stock subscription in the amount of ₱50.00 million. In addition, the BOD approved the declaration of stock dividends in the maximum of 50,241,970 shares for shareholders as of November 27, 2007. Fractional shares related to this declaration were settled in cash amounting to ₱41. The SEC approved the increase in authorized capital stock on March 6, 2008.

On June 14, 2007, the BOD approved the declaration of cash dividends amounting to ₱2,430,832 and 3.01% stock dividends amounting to ₱2,430,712 in favor of the stockholders of record as of July 12, 2007. In addition, on November 6, 2007, the BOD approved the declaration of 8.28% stock dividends amounting to ₱6,882,103 in favor of the stockholders of record as of November 26, 2007. Fractional shares related to this declaration were settled in cash amounting to ₱41.

The movements in the number of shares and capital stock amount for the years ended December 31, 2008, 2007 and 2006 follows:

	December 31, 2008		December 31, 2007		December 31, 2006	
	Number of Shares	Amount	Number of Shares	Amount	Number Of Shares	Amount
At January 1	89,999,959	₱89,999,959	80,687,187	₱80,687,187	78,858,121	₱78,858,121
Stock dividends	52,499,041	52,499,041	9,312,772	9,312,772	1,829,066	1,829,066
Issuance of shares of stock	48,543,689	48,543,689	-	-	-	-
At December 31, respectively	191,042,689	₱191,042,689	89,999,959	₱89,999,959	80,687,187	₱80,687,187

Capital Management

The primary objective of the Company's capital management policies and procedures are to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and to maximize shareholder value.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares. No changes were made in the objectives, policies or processes for the year ended December 31, 2008 and 2007, respectively.

17. Income and Other Taxes

Provision for income tax consists of:

	2008	2007	2006
Current:			
RCIT	₱1,668,247	₱8,774,867	₱6,300,705
Final	17,699	122,826	42,346
	1,685,946	8,897,693	6,343,051
Deferred	185,440	30,414	1,023,136
	₱1,871,386	₱8,928,107	₱7,366,187

The components of the net deferred tax assets follow:

	2008	2007
Deferred tax assets on:		
Allowance for impairment and credit losses	₱4,351,442	₱4,684,019
Accrued expenses	433,512	309,236
Past service cost	68,641	81,107
Unrealized foreign exchange gains	-	(35,327)
	₱4,853,595	₱5,039,035

The Company did not set up deferred tax assets on the allowance for impairment losses amounting to ₱1.51 million and ₱2.56 million as of December 31, 2008 and 2007, respectively. The Company believes that it is not probable that this temporary difference will be realized in the future.

APR 15 2010

The reconciliation of the statutory income tax to the effective income tax follows:

	2008	2007	2006
Statutory income tax	₱2,567,768	₱8,348,526	₱8,235,142
Tax effects of:			
Nondeductible expense	1,805,649	-	-
Nondeductible interest expense	30,709	72,222	24,900
Change in unrecognized deferred tax assets	708,275	526,075	(874,310)
Income subjected to CGT	(624,530)	-	-
Change in tax rate	(708,275)	-	-
Interest already subjected to final tax and dividend income	(1,908,209)	(49,130)	(19,545)
Others	-	30,414	-
Effective income tax	₱1,871,387	₱8,928,107	₱7,366,187

Republic Act (RA) No. 9337, An Act Amending National Internal Revenue Code, provides that effective July 1, 2005, the RCIT rate shall be 35% until December 31, 2008. Starting January 1, 2009, the RCIT rate shall be 30% and interest expense allowed as a deductible expense shall be 33% of interest income subjected to final tax.

Under current tax regulations, the maximum amount of entertainment, amusement and recreation (EAR) expenses allowable as deduction from gross income for purposes of income tax computation shall not exceed 1% of the gross revenue of a company engaged in the sale of services. As of December 31, 2008 and 2007, EAR expenses amounted to ₱0.33 million and ₱0.30 million, respectively.

18. Retirement Plan

The Company has a funded, tax-qualified defined benefit pension plan covering all its officers and regular employees. The benefits are based on years of service and compensation on the last year of service.

The principal actuarial assumptions used in determining retirement liability for the Company's retirement plan as of December 31 are shown below:

	2008	2007	2006
Discount rate	9.82%	8.57%	8.29%
Expected rate of return on assets	7.00	7.00	7.00
Future salary increases	10.00	10.00	10.00

The funded status and amounts recognized in the balance sheets for the net pension liability as of December 31, 2008 and 2007 follow:

	2008	2007
Present value of fund obligation	P1,096,849	P1,668,419
Fair value of plan assets	(990,791)	(934,295)
	106,058	734,124
Unrecognized actuarial gains (losses)	820,726	(162,414)
Net pension liability	P926,784	P571,710

Movement in the pension liability during the year follows:

	2008	2007
At January 1	P571,710	P659,339
Retirement expense	355,074	368,371
Contributions	-	(456,000)
At December 31	P926,784	P571,710

Movements in the present value of plan obligation follow:

	2008	2007
At January 1	P1,668,419	P1,602,673
Interest cost	142,984	132,862
Current service cost	277,491	255,586
Actuarial gains	(992,045)	(322,702)
At December 31	P1,096,849	P1,668,419
Experience adjustments	P853,586	P275,772

Movements in the fair value of plan assets recognized follow:

	2008	2007
At January 1	P934,295	P467,267
Expected return on plan assets	65,401	32,709
Contributions paid by employer	-	456,000
Actuarial loss	(8,905)	(21,681)
At December 31	P990,791	P934,295
Experience adjustments	P8,905	P21,681

Actual return on plan assets amounted to P0.06 million and P0.01 million as of December 31, 2008 and 2007, respectively.

The retirement expense included in salaries and employee benefits in the statements of income follows:

	2008	2007
Current service cost	P277,491	P255,586
Interest cost	142,984	132,862
Expected return on plan assets	(65,401)	(32,709)
Actuarial gains	-	12,632
	P355,074	P368,371

The categories of plan assets follow:

	2008	2007
Government securities	92.46%	53.49%
Time deposits	2.31	41.71
Accrued interest receivables	1.25	0.22
Savings deposits	0.08	0.79
Others	3.90	-

The overall expected rate of return on plan assets is determined based on the market prices prevailing on that date applicable to the period over which the obligation is to be settled.

19. Related Party Transactions

The following transactions have been entered into with related parties:

Related Party	Nature of Related Party Relationship	Nature of Transaction	Elements of Transactions			
			Balance Sheet Amount		Statement of Income Amount	
			2008	2007	2008	2007
AIB	Stockholder	Receivables	P101,007	P1,276,013		
		Note payable	119,300,000	121,800,000		
		Car lease contract	224,772	3,903,252		
		Interest expense			P1,332,861	P9,293,706
		Interest Income			-	200,191
Merg Realty and Development Corporation	Stockholder	Rent expense			591,360	484,006
		Notes payable	1,500,000	1,500,000		
		Interest expense			51,945	42,481
Honda Motor World	Affiliate	Professional fees			1,440,000	44,445
		Advances	-	35,512,876		
		Receivables	-	3,560,810		
		Payables	225,152	1,162,068		
Feliz Management, Inc.	Affiliate	Professional fees			945,012	600,000
Pikeville Bancshares	Affiliate	Professional fees			930,000	692,000
Merg Resources	Affiliate	Rent expense			200,000	200,000
Others	Affiliates	Interest expense			88,760	294,375
	Directors	Notes payable	15,001,417	4,493,728		
	Directors	Management fees			720,000	1,100,000

The remuneration of directors and other members of key management consist of short-term benefits amounting to P4.43 million and P4.18 million in 2008 and 2007, respectively, included in the Management and Professional Fees account in the statements of income.

20. Basic/Diluted Earnings Per Share

EPS amounts were calculated as follows:

	2008	2007	2006
a. Net income	₱5,465,094	₱15,047,649	₱16,205,137
b. Weighted average number of outstanding common shares	181,729,472	81,902,542	80,687,184
c. Basic/diluted earnings per share (a/b)	₱0.03	₱0.18	₱0.20

As of December 31, 2008 and 2007, there were no shares of stock that have a dilutive effect on the EPS of the Company.

21. Contingent Liability

In 2003, the Company received a preliminary assessment notice from the BIR for various tax liabilities covering the taxable year 1999 amounting to ₱5.33 million. In 2004, the Company entered into a compromise settlement with the BIR for the settlement of this assessment at ₱0.72 million. Of this amount, ₱0.39 million were paid representing basic deficiency tax and compromise penalty. The balance represents interest. On December 19, 2006, the Company filed an abatement on its outstanding tax liability amounting to ₱0.31 million and has not received any reply as of December 31, 2007.

22. Lease Commitment

The Company leases its office space under a lease contract expiring on September 30, 2009. Total rent expense incurred in December 31, 2008 and 2007 amounted to ₱0.96 million. The lease contract is renewable annually upon agreement of the lessor and the Company.
